(604) 999-0775

joshgg@icloud.com

I am a full stack developer who relishes the opportunity to use my creativity and intuition to develop meaningful software. With a degree in criminology and 4+ years of sales and customer service experience in the lumber industry, I have proven experience thinking critically to solve problems and working collaboratively with both colleagues and customers. Experienced in both front-end and back-end development, I am diligent in my pursuit of a solution for any problem I am tasked with. I pride myself on my relentless work ethic, my team-first attitude, and my drive to grow as a developer every day.

TECHNICAL SKILLS
